PRINCIPAL'S MESSAGE

This is the DAWN - the "dawn" of many new things - the "dawn" of a new era.

You - who are graduating - have been in high school in transitory years - in world affairs and in high school administration.

You entered high school immediately following the end of the war. You saw the chaos and birth of the United Nations. We are still striving to bring "peace on earth" in a troubled world. Let us hope that you - and others like you who are graduating from high school this year - are equipped with fundamental tools to take your place in society as responsible citizens in a world that needs young, trained minds.

For some, high school marks the end of their formal education, for others the second step to higher education. Whichever the case may be, we - the faculty of Esparto Union High School - trust that we have given you the best training possible.

Sincerely,

V. E. Korstad
